I am a dedicated individual with a strong foundation in web development. During my internship, I honed my skills in PHP and MySQL, gaining valuable experience in backend web development. I have also had the opportunity to work on exciting full-stack projects using the MERN stack, showcasing my versatility as a developer. I am enthusiastic about furthering my career as a developer, and I'm eager to contribute my skills to innovative projects alongside like-minded professionals who share my passion for innovation.

PROJECTS

Bug Tracker

Technologies Used: Javascript, React JS, Tailwind CSS, Node Express JS, MongoDB.

- MERN Stack Bug Tracker: Empowers users with seamless bug tracking functionalities. Enables secure authentication, efficient project creation, and dynamic issue tracking. Personalized dashboards provide real-time updates and notifications, enhancing user collaboration and project management.

me.socialmedia
